What is Brazil's first large-scale energy storage system?

Brazil launched on Thursday its first large-scale energy storage system with a total capacity of 30 MW, power sector regulator Aneel announced.

What is Brazil's largest battery storage project?

Further details about Brazil's largest battery storage project to date have been revealed including its integrators and equipment providers. The inauguration of the 30MW/60MWh system took place last year, on the networks of transmission system operator (TSO) ISO CTEEP, as reported by Energy-Storage.news in November.

Who approved the first large-scale battery energy storage project in Brazil?

Brazil's National Electric Energy Agency (ANEEL) approved the first large-scale battery energy storage project in the Brazilian transmission system.

Will Brazil's first large-scale battery be connected to the grid?

From pv magazine LatAm Brazil's transmission system operator, ISA CTEEP, has announced that the country's first large-scale battery has been connected to the grid at one of its electrical substations in Sao Paulo.

How can Brazil expand the share of renewable sources?

"One way to expand the share of renewable sources in Brazil's power generation mix is by giving them greater predictability. A non-dispatchable, non-predictable renewable source, when combined with a storage system, becomes dispatchable, that is, more widely used by the national system operator.

Brazil launched on Thursday its first large-scale energy storage system with a total capacity of 30 MW, power sector regulator Aneel announced. Located in the ... Sao Paulo state, the new system is capable of delivering 60 MWh of energy for two hours and was developed by Brazilian electric energy transmission utility ISA CTEEP (BVMF:TRPL4).
