The purpose and goal of energy storage. The event is held in the growing Nordic energy cluster. The cluster has many active companies and actors working together with innovative projects such as the development of the Finnish batteries ecosystem, hi-tech products and new University education for the industry.

The district heating system in Bucharest can't be transformed without integrating renewables, said ELCEN's General Manager Claudiu Crețu. "We are focusing, in parallel with geothermal energy, on the energy storage part, both thermal and electrical. You can't heat Bucharest with either wind energy or solar energy.

Răzvan Nicolescu, the EIT Governing Board member and former energy minister in Romania, declared: "I am very excited that such an important storage capacity is manufactured and installed in Europe by a Romanian company benefiting from EIT InnoEnergy support. The project is very important for the resilience and energy autonomy of Europe because the ...
