We help you to make the mobility of tomorrow even more efficient - with battery cases made from fiber composite materials. With significantly lower weight, they enable longer ranges and at the same time, meet other important requirements for safety, economy and thermal management better than conventional materials.

Talking specifically about the BYD B-Box BPLUS 2.5kWh battery module, it is an extremely versatile and durable solution for energy storage applications. It has a continuous discharge rate of up to 1C and a peak discharge rate of 2C, making it ideal for high-load applications in both off-grid and backup settings.
