

Outdoor portable energy storage ranking

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

What can a portable power station Power?

A portable power station can power your phone, computer, or even your refrigerator. We researched the best portable power stations to help you decide which is right for you.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

How long does a portable power station last?

One cycle means using the product from fully charged to zero charge (or at least 80% in some cases). If you use your portable power station several times a week, it might only last a year or two. If you use it less frequently, it could last for much longer. What can you run on a portable power station?

Are portable power stations good for inclement weather?

It's certainly my first choice of portable power stations for use in inclement weather. Internet reviews suggest that this unit is a popular choice among campers, photographers, and videographers, and others who need power in harsh conditions.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.
